Summary

Computer Science graduate with hands-on experience in **React.js**, **Node.js**, **Express.js**, and **MongoDB**, gained through internship experience and full-stack projects. Skilled in developing responsive web applications, reusable components, and **REST API** integration, with a passion for building scalable software solutions.

Skills

Programming Languages: JavaScript, Python

Frontend: React.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js

Databases: MongoDB,

Core Concepts: REST APIs, OOP, SDLC, Responsive Design

Experience

IT & Software Developer Intern

June 2025 – August 2025

MedCapSky Revolution Private Limited [\(Certificate\)](#)

- Developed frontend features for **2 production-ready React.js web applications** using Tailwind CSS, improving responsiveness across **3 device categories** (desktop, tablet, and mobile).
- Built **10+ reusable React components**, reducing duplicate code and accelerating frontend development for new features.
- Fixed **20+ UI, responsive, and cross-browser issues**, improving consistency across Chrome, Edge, and Firefox.
- Earned a **Certificate of Appreciation** for delivering high-quality solutions and demonstrating strong technical performance throughout the internship.

Projects

Social Graph Platform

React.js, Tailwind CSS, Node.js, Express.js, MongoDB, React Flow

- Developed a full-stack social graph platform with interactive node visualization, enabling users to create and manage **100+ interconnected nodes and relationships**.
- Designed and implemented **6+ REST API endpoints** using Express.js and MongoDB for graph, friendship, and recommendation management.
- Built recommendation feedback and persistent node positioning using LocalStorage, eliminating unnecessary graph reloads and improving application responsiveness.
- Deployed the frontend on **Vercel** and backend on **Render**, ensuring reliable access and seamless client-server communication.

Samvidhan Seekho – Educational Web Platform

React.js, Node.js, MongoDB, JavaScript, Tailwind CSS, Git

- Developed a gamified constitutional learning platform featuring **6+ interactive modules, quizzes**, and progress tracking to enhance user engagement.
- Built **15+ reusable React components** with Tailwind CSS, reducing duplicate code and improving frontend maintainability.
- Collaborated with a **4-member team** using Git and GitHub, contributing to **10+ feature implementations** while ensuring responsive design across desktop and mobile devices.

Certifications

- **Artificial Intelligence Fundamentals** March 2026
Issued by IBM SkillsBuild, [View Credential](#)
- **Certificate of Appreciation** July 2025
Appreciation during internship, [View Credential](#)

Education

Bachelor of Technology in Computer Science

2022 – 2026

Greater Noida College of Technology, Greater Noida
