

SUMIT KUMAR

Full stack Developer | React.js | Node.js | MongoDB

Bengaluru, India | +91-8130837919 | sumit7314roy@gmail.com | [LinkedIn](#) | [Portfolio](#) | [Leetcode](#)

Summary

Computer Science graduate with hands-on experience in full-stack web development using JavaScript, React.js, Node.js, Express.js, MongoDB, and SQL. Experienced in building responsive web applications, REST APIs, authentication systems, and database-driven features. Strong foundation in Java, Python, OOP, DSA, DBMS, and software development practices, with a focus on building scalable and maintainable applications.

Education

Bachelor of Technology in Computer Science	2022 – 2026
Greater Noida College of Technology, Greater Noida	
Senior Secondary (12th)	2022
DAV Public School, Faridabad	

Skills

Programming Languages: Java, Python, JavaScript
Frontend: React.js, Tailwind CSS, HTML5, CSS3, React Router
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: SQL, MongoDB
Core Concepts: DSA, OOP, DBMS, SDLC, Responsive Design

Experience

IT & Software Developer Intern	June 2025 – August 2025
MedCapSky Revolution Private Limited (Certificate)	
- Developed frontend features for 2 production-ready React.js web applications using Tailwind CSS, improving responsiveness across 3 device categories (desktop, tablet, and mobile). - Built 10+ reusable React components, reducing duplicate code and accelerating frontend development for new features. - Fixed 20+ UI, responsive, and cross-browser issues, improving consistency across Chrome, Edge, and Firefox. - Earned a Certificate of Appreciation for delivering high-quality solutions and demonstrating strong technical performance throughout the internship.	

Projects

Labour Ledger – Workforce Management Platform
<i>React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT</i>
- Engineered a full-stack workforce management application with 3 core modules for employee management, attendance tracking, and salary processing. - Implemented 2 authentication workflows (signup/login) with JWT-based authorization and protected employee and attendance APIs using Express.js, MongoDB, and Mongoose. - Integrated 2 salary calculation modes (automatic and manual), including React Router, Axios, and Tailwind CSS. - Deployed the application as 2 independently hosted services—React frontend on Vercel and Node.js backend on Render.

Samvidhan Seekho – Educational Web Platform
<i>React.js, Node.js, MongoDB, JavaScript, Tailwind CSS, Git</i>
- Created a gamified constitutional learning platform featuring 6+ interactive modules, quizzes, and progress tracking to enhance user engagement. - Designed 15+ reusable React components with Tailwind CSS, reducing duplicate code and improving frontend maintainability. - Collaborated with a 4-member team using Git and GitHub, contributing to 10+ feature implementations while ensuring responsive design across desktop and mobile devices.
